Improvement design for Preobrazhenskaya Square

Category	Landscaping	Authors
Location	Moscow	Alexander Poroshkin
Square	0.63 ha	Ekaterina Zrazhevskaya
Year	2015	Ilya Korenev

Two options for Preobrazhenskaya Square territory improvement were proposed. The first option was to divide it into a recreation area with curved paths and a central promenade that will connect the exit from the metro station with a nearby church. In the second version, it was suggested to preserve the existing road system as much as possible, while adding a square and recreation areas.
