The project of the adjail office in the OKO tower. The space is located on the 17th floor and is a place where work, recreation, and sports are successfully combined at the same time. The concept is based on the idea that it is possible to maintain a balance between work and productive rest in the office.

There are three main divisions in the office: a game room, a common area and a relaxation space.

In the play area, you can easily switch from work issues and cheer up. You can arrange a table tennis tournament – a soft amphitheater is installed for the audience or play a dynamic PlayStation.

The common area consists of a coffee point, a bar, a coworking and a cozy space with soft sofas, a bio fireplace, which allows you to discuss working moments in a relaxed atmosphere.

In the relaxation area, you can relax and relax in a massage chair, take a book from the mini-library or enjoy the beautiful view from the window.

The corridor is the link between the main areas and the kitchen. There are motivational quotes on the walls to raise team spirit. Special capsule booths and glass partitions were provided for negotiations.
