

Development project in Sukhanovo

Category	Urban Planning	Authors Alexander Poroshkin
Location	Moscow region	
Square	170000 m ²	
Year	2011	

A real estate development sketch for the area at Sukhanovo Manor located in Moscow region, 7 km from the Moscow Ring Road.

The architects have proposed a multi-format development of the site with 3 to 5-storey houses. The low-rise buildings will help to avoid contrasts with the historical context of the neighborhood, and will form a compact, beautiful and consistent living space with developed infrastructure. A park, a school, a kindergarten and a community center are also to be developed on the territory.
