Shopping center in Votkinsk

Category	Public Buildings	Authors Alexander Poroshkin Ilya Korenev Elena Vinogradova
Location	Votkinsk	
Square	6758 m ²	
Year	2018	
Status	Concept	
Client	Chelsea LLC	

The object is located in the historical center of the city, therefore, to form the architectural look organically integrated into the context of the existing environment, prototypes of the previously existing buildings were used. The architecture of the public center features wooden architecture motifs with the use of relevant roofs corners, windows and materials used. The first floors are intended for shopping areas and parking, on the second floor there are office areas, on the third — apartments.
